# WHO WE ARE?

Phish Defense is a cutting-edge Automated Phishing Simulation and Security Awareness Training Platform designed to fortify your organisation's defenses against phishing attacks.

## OUR SIMULATION

### 1. Exclusive WhatsApp Phishing

- Assess WhatsApp phishing risk and empower effective responses.
- Identify trends, measure progress, and make informed decisions.

### 2. Email Phishing

- Experience realistic environments to explore phishing attack intricacies.
- Capture clicks, credentials, QR code exploits, and attachment threats.

### 3. SMS Phishing

- Authentic scenarios with customised sender numbers.
- Capture replies, schedule campaigns, with automatic reporting.

### 4. Voice Phishing

- Evaluate users' responses to voice-based credential requests during Vishing calls.
- Capture detailed data on simulated Vishing call delivery and interaction.

### 5. Ransomware phishing

- Simulate realistic ransomware-themed phishing attacks to test employee awareness.
- Train staff to recognize malicious attachments, links, and ransom demands before real threats strike.

### 6. Email call-back Phishing

- Launch simulated "call-back" phishing campaigns where users are tricked into replying back with sensitive information.
- Evaluate response behaviors and strengthen defenses against emerging fraud techniques.

### 7. USB Drop Test

- Deploy simulated infected USB devices to test employee curiosity and response.
- Measure how staff handle unknown devices and reinforce safe workplace practices.

### 8. Security Awareness Training

- Interactive Content · SCORM Modules · Multilingual · Custom Training · Auto Reminders · Auto Escalation · Smart Assignments · Certificates

## MSSP PARTNER ADVANTAGES

### White Label Solutions

Personalize our state-of-the-art products to your brand, delivering a seamless and unique client experience.

### Rotational License

Unlimited MSSP licenses facilitate seamless scalability, enabling the extension of services to an unrestricted number of clients.

### Global Presence

Partner with our global presence for diverse markets & opportunities, expanding borders with a trusted industry leader.

### Tailored Support

Unique partner support includes personalized training, dedicated account management & a steadfast commitment.

### Innovative Solutions

Partner with us to lead in tech and innovation. Be the first to provide groundbreaking solutions to your clients.

### On Premise Option

Deploy PhisDefense securely within your own infrastructure for maximum control and compliance. Ensure data sovereignty, privacy, and seamless integration with your existing IT environment.
